INTRODUCTION

Introduction

This catalogue has been compiled on the basis of contributions of Indian and European higher-education institutions and national-level representations participating in the ‘EU-India Higher Education Conference’ which will be held in New Delhi, on Thursday 29 September 2016, at the Auditorium & Jacaranda, Habitat World, at India Habitat Centre, New Delhi.

The entries below give summaries of the profiles of the institutions, and indicate the type of cooperation activities that these universities and organisations are interested in, contact details and website addresses.

We hope that the catalogue will help colleagues to identify potential partner institutions. It can be used to facilitate discussions in person during the ‘matchmaking’ event to be held as part of the Conference, and for subsequent reference.

The Conference, and the European Higher Education Fair being held on 30th September and 1st October at the Pragati Maidan, with the participation of the same cohort of European universities and national representations, is organised by the EU-funded project ‘European Higher Education Fairs in Central Asia and Asia’, implemented by a consortium led by the S.I.C.I. Dominus company (Spain). For further information on the project, including details of the India Fair and Conference see the website – www.ehef.asia.

<i>Type/profile of institution:</i> classical public university. The University of Pécs is the oldest university of Hungary, which was founded in 1367. The University of Pécs is one of the largest higher education institutions in Hungary. With its 20,000 students and 500 different study programmes this integrated university offers a wide spectrum of teaching activities.	

The University of Pécs functions as a knowledge centre for innovation in the South Transdanubian Region. Nearly 2,000 teaching and research staff members participate in research projects at our 9 faculties. 22 doctoral schools offer PhD and DLA degrees that cover a wide spectrum of the sciences. One of the main strategic goals of the University of Pécs is to create and invigorate a truly international university. We continuously strive to facilitate high-value opportunities for lecturers and students to conduct research and obtain higher education experiences in international environments all over the world. Our objective is to expand student and staff mobility, develop and enhance international teaching and research partnerships. We are also committed to providing an international environment within the university by enrolling an increasing number of international students and inviting international lecturers who help co-create partnerships without borders.

Interest in cooperation:

Given appropriate mutual interest, we are happy to expand our inter-university network and collaborate with other prestigious universities in India. These agreements apply to both student and staff mobility and to other forms of collaboration:

- Faculty exchanges for teaching and research.
- Study and research carried out by the partner University faculty members and undergraduate (BA, BSc) and graduate (MA, MSc, PhD, DLA) students at the University of Pécs.
